Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the our of billous complaints than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of Jic profession and the people.

paragraph which occurs in the reply of the Legislative Council to the Governor, passed on Monday:

6. We are glad that a question of such absorbing interest as the Seat of Government in the Colony is at length to receive its final settlement with due regard to public faith and honor, and the just claims of all parties considered.

What do a "due regard to public faith and honor and the just claims of all parties considered" mean? The only sentence in the Governor's speech that alludes to the matter as one of " public faith and honor" reads thus:

" Suffice it now to say that Her Majesty's Government are of opinion that in my Message of 27th March, 1867. I took an extreme view as to the extent to which public faith and honor are pledged to the purchasers of land in New Westminster. Further, that I should consider the public or venience from time to time as the main guide in the selec-tion of a Seat of Government."

Nothing is said about the "just claims of all parties" being "considered; neither is there the slightest reference to a "due regard to public faith and honor." The Committee who drafted the Reply have taken a most unwarrantable liberty. They have put words into his Excellency's mouth he never uttered. They profess to draw the inference that the paragraph we have quoted carries a different meaning from

They attempt to compromise his Excellency by making it appear that he has recommended "compensation" to New Westminster lotowners, when his Excellency distinctly states that the "extreme" view taken by him in the matter of "public faith and honor pledged to the purchasers of land in New Westminster" is not shared by the Home Government. This, then, is the reason why the Reply was passed wholus bolus. The significant paragraph in the Reply indicates that an attempt will be made to impose a burthen upon the whole country by compensating owners of real estate at New Westminster for suppositious losses in the event of the removal of the Seat of Government. Let the principle be admitted in this case and we shall soon have not only losers through bad investments in town lots clamoring to be reimbursed for their losses, but flour and liquor dealers, and speculators in every description of merchandise, will be found poking their "little bills" at the Legislative Council for "compensation" for a fall in the market. Victoria sacrificed her Free Port for Union. Was there ever a word said about "compensating" the merchants who had invested thousands in the erection of costly warehouses, under the pledge that this should continue a Free Port? Hundreds of families settled at Victoria when it was the Seat of Government of Vancouver Island. Were they ever "compensated" for their losses by the concentration of the public offices at New Westminster? Can anybody call to mind a single instance wherein a lot owner at Langley was "compensated" for the re moval of the Capital? Were the people of Quebec, of Toronto, of Montreal, of Kingston, (in Canada,) or of Vallejo or San Jose, (in California,) "compensated" for the loss of the Seat of Government? No. The demand (if made) will be wholly without precedent, will be iniquitous and unjust and the effect, if granted, mischievous. The New Westminsterians who invested their means in that town did so with a speculative object in view. If they lose (which we doubt) by the removal of the Seat of Government, who have they to blame but themselves? Besides, their losses are entirely suppositious. At the most, not above fifty persons out of a pop ulation of six hundred will have to reside in Victoria, and surely the removal of fifty persons can not materially affect the price of real estate at New Westminster or anywhere else. The Colony will justly regard the proposition (if it be presed) as a conspiracy to extort money, and should it be carried the Home Government will not fail to visit any official who may connive at the fraud with a severe mark of its disapproval.

Progress of Confederation ! What the People's Committee asked for THE REPLY OF THE CANA-DIAN GOVERNMENT!

At a late hour last evening the following communication, with accompanying documents and telegram, were handed in for publication by the Committee appointed at the late publie meeting. We have only space to direct the earnest attention of our readers thereto, and to add that if the members of the Legislative Council who last year voted unanimously for Confederation, will remain true to the piedge they then gave, the Shaving Shop to the opposite side of Johnson great work of uniting this Colony to street, just above the Miner's Saloon. the pledge they then gave, the

EDITOR BRITISH COLONIST:-The Commit tee appointed at the public meeting, held in the Theatre on the 29 h of January last, on the subject of Confederation, desire to inform the subject of Confederation, desire to inform the public through your columns that the following memorial, embodying the terms which they believed would be acceptable to the people, was disputched to the Government of the Dominion on the first day of February last, and the subjuined important telegram last, and the subjoined important telegram has this day been received in reply thereto clearly indicating the desire of the Govern-ment of Canada to act in accordance with the wishes of the people of this Colony. We trust, therefore, that our Legislature will immediately act upon the suggestion conveyed in the telegram, and pass an address to Her Majesty praying for union with Canada upon

the terms contained in the memorial.

The Memorial of the undersigned, a Committee appointed at a Public Meeting of the Citizens of Victoria, V. I., B. C., January 29th, 1868, respectfully represents:

1. That on the 18th day of March last, a resolution was unanimously passed by the Legislative Council of this Colony asking His Excellency Governor Seymour to take measures without delay to secure the admission of British Columbia into the Canadian Confederacy on fair and equitable terms. terms.

2. That a public meeting was held at the same time in Victoria, expressing concurrent views with the action of the Legislative

3. That the people of Cariboo, the next 3. Institue people of Carloso, the next most popu out and influential portion of the Colony, held in December last, a highly on thusiastic meeting, and unanimously passed resolutions in layer of immediately joining

4. That public opinion throughout the Colony, so far as we can learn, is overwhelmingly in favor of Confederation.

5. That there is a small party in favor of Annexation to the United States, and if it were practicable or possible, their numbers would be largely increased.

That there is a small party. Annexationists, who are opposed to Confederation.

7. Nearly all the office-helders of the Colony are allied to the latter party.

8. The total number of those opposed to Confederation on fair and equitable terms is nomerically small, but supported by the office holders, they may exert a good deal of resistance to the popular will.

9. That from information in a telegram from Ottawa, dated January 22d, 1868, we learn that Governor Seymour has not m de any proposition to the Dominion Govern-ment respecting our admission, as was ex-

10. That the Legislative Council, the only Legislative body in the Colony, is made up of a majority, consisting of heads of Departments, Gold Commissioners, Magistrates and others, subject to Government influence, and cannot be relied upon to urge on Confederations. tion as it ought to be at the present junc-

11. That the only popular institutions in the Colony are the City Councils of Victoria and New Westminster.

12. That therefore the people of this Colony are really without the means of expressing and carrying out their wishes through the Legislature.

13. We, therefore, representing the views of a large majority of the people of this the most populous and influential section of the Colony, and acting in unison with the general Colony, and acting in unison with the general and expressed wishes of the people throughout the Colony, would respectfully ask the Government of the Dominion to take immediate steps to bring t is Colony into the Dominion, by telegraphing or communicating with Her Majesty's Government, to issue immediate instructions to Governor Seymour, or otherwise to conclude negatiations mour, or otherwise to conclude negotiation as to the terms of admission.

14. We feel that without the help and liberal support of the Government of the Diminion the time will be somewhat remote when this Colony will be admitted into the Dominion, but with the aid which we solicit we believe that there is no obstacle to prevent our admission by the first of July next.

15. We would further represent for the information of the Government of the Do minion that the terms of admission which world be acceptable to the people of this Colony, as lar as we can learn, would be:

1. The Dominion to become liable for the entire public debt of this Colony, estimated at \$1 500 000.

2. The Dominion to provide for federa officers and services.

3. To grant a sufficient fixed subsidy and per capita subsidy, to insure the sup-port of the Local Government, in addition to the powers of taxation reserved to Provincial Governments in the Botish North American Act.

4. Representation in the Senate and Commons of Canada.

5. Popular repr sentative institutions in suring responsible control over the Government.

6. The construction of a trans-continenta waggon road from Lake Superior to the Head of navigation on the Lower Fraser, within two years after the time of admission. This is regarded as an essential condition.

16. Hereafter we hope to communicate further information. In the meantime we confidently trust the Government of the Dominion will cheerfully aid the people of this Colony in furthering their immediate admission.

17. Enclosed we send you a copy of re quisition to the Mayor to call a public meeting, and also a copy of the Resolutions passed at said meeting held on the 29th January, 1868.

The news from Japan is of the highest importance. An extra from the Japan Times, dated Yokobama, January 25th, says: A revolution has been the cons A revolution has been the consequence of the opening of the new priss. Disturbances have taken place at Yeddo of a serious nature. The Nimo Maru, a palace in the chief enclosure of the Shogoon's castle and the residence of the ladies of his Court, was burned down on the 16th inst. The relies of all Shogongalie in the Maru, and relics of all Shogoons lie in the Maru, and it is said that the palace was destroyed by a band of Satsuma's people, who came up to rescue, in that manner, a sister of their Prince, who had been the wife of a former Shogoon. It has not been ascertained that this was really the case, but two days after-wards Satsuma's chief palace at Yeddo was wards Satsuma's culci palace as attacked and burned by Shogoon's troops, as well as three smaller houses of his. The palace had for some time been dismantled and the Government declare that they had no quarrel with Satsuma, but merely went to dialodge a number of confotteri who had established themselves in the empty yashikts. There was a severe fight at the principal house and the official report is that 140 of the robbers were killed and 160 wounded the Government loss being 50 or 60 killed and wounded. The new ports of Osaka and Hiogo were

formally proclaimed open on the 1st instant but no trade has been done worth mention very unpleasant, houses of the most inferio description being scarce and dear and pro visions at exprisitant prices. The main settlement has been placed at Kobe, a mis-erable fishing village a couple of miles from Hiogo, and general opinion is dead against the Ministers for having selected a site so inferior in every respect to that of the port of Hiogo itself.

It is with the deepest regret that we have to announce two deaths which have signal-ized the opening of the new ports. Admiral Bell of the U.S. Navy was drowned on the 11th instant while attempting to cross the bar If it instant while attempting to cross the bar at the mouth of the Usaka river. The tot-lowing particulars are given: The mouth of the Osaka is closed by a frightful bar which is in most states of the weather dang rous to cross. I was detained two days waiting for a chance to get across to the ship last week. A very sad occurrence has taken place in connection with this bar. On the morning of the 11th. Admiral Bell of the US Navy, accompanied by his flig licutenant Reid and 13 men, started from the Hartford (which was lying at the mouth of the river) in a ships boat togo up to O-aka. He had been waiting two or three days for a chance to get across, and became impatient and said he would go although it was blowing hard. As he was going over the side an old whiler be was going over the side an old whiler asked primasion to go and steer bim with a steer our. He refused saying he would take the ordinary conswain, so they started with a rudder oily. As they were crossing the bar the boat dipped into the sea and as her rudder was out of the water a sea struck her on the stern and capsized her. The accident was seen from the Hartford who lowered a best to the resence. The who lowered a boat to the reacue. The relief arrived within a few yards of the capsized beat and raw the Admiral hanging on, when the poor old man got benumbed and locaing his hold went down. His bory was washed ashore a short time alterwards. Three of the sailors were saved, the remain the relief property of the sailors were saved, the remain the relief property and the relief property er, 12 persons in all, were drowned. All the bodies were recovered and they were buried here yesterday. It was a melancholy sight in so small a community. So, after all, the port has cost human life to open it, although no order that been shed.

MR ANDERSON'S BENEFIT.-This evening Mr Anderson takes his benefit and has provided a most liberal programme for the occasion. The first piece is the sensation drama of "Henry Dunbar," to which we have already referred. The rehearsals have been carefully attended and the cast appears strong. Most of our readers know the novel of Miss Braddon's that created so great a sensation about four years ago, so we will not give the gist of the drama. The beneficiare takes the title-role, Joseph Wilmot, the man who murders and assumes the name, estate and property of Henry Dunbar. Mr C Clarke plays the other rogue and swindler, "the Major," with heaps of aliases, and Mr Marsh undertakes the duty of the great detective Carter. Mrs Jenny Arnot Fowlis

appears as Margaret, the daughter of Wilmot; and Miss Yeoman as Laura Dunbar; Mr Brodie as Clement Austin, and we notice a strong cast of amateurs to fill up the long list of characters. We understand this is the first and only time that this sensation play will be produced. The Orchestra comprises Mr Gunther, Mr Bushell. Mr Palmer and members of the Zealous band. This guarantees good music. Edwards is going to sing and Sam Colline will give his excessively lunny song "The Perambulator," and Mr Buchell produces a new galop for the occasion. The Officers' Amateur Club of H. M. S. Reindeer make their first appearance in the farce of 'Poor Pillicoddy.' Altogother, Mr Anderson has off red us much movelty and twenty-one names on his bill. Mrst influential patronage has been tendered to him, and we hore to see a full house reward his exertions to p'ense. We would draw attention to the comm udable fact that the performance will commence at half-past Mr Palmer and members of the Zealous band. the performance will commence at half-past seven, sharp. The box office will be open to-day from 12 till 3, p. m.

WESTERN EXTENSION .- The Western (Canada) Advertiser, in remarking upon the acquisition of the North West Territory to the Dominion says; "As the acquisition of that immense and fertile territory has already been placed at our option, there is every reason to suppose that Canada, at no distant hour, will stretch its limits from the Atlantic to the Pacific Ocean, and there could not be a nobler basis on which to rear the future of an empire. True, this western movement, like the Intercolonial Line, will necessarily involve vast expense. That, however, is a part of the conditions on which we start for wider influence and ampler prosperity. We are placed in such circumstances, that outlay, and large outlay, too, is inevitable, and if affairs are judiciously regulated, the North West at least will get repay us a thousand told. There are five sources of expense connected with the acquisition of the North West and Rupert's Land. 1st-The construction of a road from Lake Suprior to the Red River Settlement. 2nd—Extinction of the claims of the Hudson's Bay Company. 3rd—The extinction of the possessory rights of the Indians. 4th—The cost of civil government. 5th—The construction of military stations and the distribution of tecons along stations and the distribution of troops along a frontier of a thousand miles—not to protect the country from American aggression, nor the settlers from Fenian raids, American frontier from Indian wars carried on from British territory.

INDEPENDENT GRAND LODGE .- The Grand Lodge of the Ancient and Honorable Fraternity of Free and Accepted Masons of New Brunswick, formed by a convention of sixteen Lodges on the 10th day of October last, was on the twenty-second of January duly consecrated and dedicated according to one of considerable interest to the members of the Fraternity, representatives of Lodges having attended from all sections of the Province, and there being present a very large gathering of members of City Lodges. There were also present several visiting brethren, including a delegation from the State of Maine, headed by Brother D. E. Seymour, a member of the Grand Lodge of that State, who, amid the plaudits of the Brethren, extended on behalf of the Grand Master of Maine, the right hand of fellowship to the Grand Master of New Brunswick. The Grand Lodge, after the transaction of considerable routine business, separated, and resumed its sittings at three o'clock to-day.

AN EXTRAORDINARY FEAT -At Albambre Hall, on Monday evening, an extraordinary feat will be attempted. Letter from Cariboo.

Barkerville. March 10, 1868,
EDITOR COLONIST,—Will you be kind enough to allow me a little space in the columns of your valuable paper, to pass a few remarks on a public ball which was given at Barkerville on the evening of Washington's birthday, for the benefit of the Hospital. The particulars may have some interest for your readers. Here, I must say, the ball created at the time a sensation by its novelty. The fair sex was only represented by four native nymphs, who made their appearance in somewhat gaudy, though deem! attire. They conducted themselves during the whole performance in such a becoming and ladylike manner as to stand the hardest test of scrutiny from any Puritan whatever. They were very gently handled throughout by the rough-bearded part of the assembly. The dancing was kept up till seven o'clock the next morning, the boys seeming rather light next morning, the boys seeming rather light on their tiptoes, notwithstanding the hard tasks to which they are daily addicted. A more orderly party never took place here or elsewhere. Every one appeared to enjoy himself to his heart's content. Now that I have given you the de-oriptive part of the ball, allow me to say a few words with regard to its result. There were from 160 to 200 persons present during most part of the night.
221 tickets were sold at \$2.50 each; besides
his \$75 worth of donations were made by
parties who did not buy tickets. Of the last mentioned sum \$50 were presented by Mr. Wm Sterling, who gave, besides, free of charge, his capacious saloon for the use of the ball. This is a most praiseworthy act of liberality, which will bear good fruits to the donor, and deserves to be recorded here. The handsome sum of \$550 was raised as the actt proceeds—a large amount, indeed, if we take into consideration the scarcity of money up here at the present time. In fact, the has ceed the most productive party of the kind ever given in Cariboo. As its object was a most worthy one, all who could con-ribute their mite to it did so most cheerfully. Great praise is due to the Committee appointed to attend the arrangements of the ball, for the energy and zeal displayed in disposing

The heart of every good man feels greatly relieve in thinking what a great help this sum of money will be to the poor inmates of the Hospital.

Liq. Camonis Diretarans—We are very sceptical of the value of .ew reme les, and it was in a spirit fracepticism that we tried the liq. carbonis detergens. It is represented to the liq. carbonis detergence of the tar, to wit, became, unpublatine, and phenic aid. The addition of water, with agitation, makes a durable emulsion, in which the tar remains in a state of fine suspension, almost equivalent to solution. Our therapeatical experience of the oreparation is very satisfactory indeed. In our hands it has been a most effective agent in the case of various skin, diseases, especially of the circumic excentations class; and one case of positions which had resisted ait other kinds of treatment speedily structly indeed the application of the liq. carbonis detergens. We esteem it a very valuable addition to our list of the profession, and worthy of a very extended trial by the profession, and worthy of a very extended trial by the profession, and worthy of a very extended trial by a various others, such as tend ulows, etc., the preparation is put into the form of soap. Tuese different medicines represent the most recent

medical disoveries, founded on the principles of Chemstry and Therapeutics. They must not be confounded with secret or quack medicines, as their names sufficiently indicate their composition; a circumstance which has caused them to be appreciated and prescribed by the Faculty in the whole world. They widely differ from those numerous medicines advertised in the public papers as able to cure every possible disease, as they are applicable only to but a very few complaints. The most stringent laws exist in France with regard to the sale of medical preparations, and only those which have undergone an examination by the Academy of Medicine and have been proved efficacious, either in the hospital or in the practice of the first medical men, are authorised by the Government. This fact must be a guarantee for the excellence of Messrs. Grimnult et Co.'s Medicines.
